Professional Summary

Full Stack Engineer with 4+ years of experience designing and shipping production-grade mobile and backend systems. Specialised in React Native, TypeScript and AWS serverless architecture, with deep fintech expertise including Open Banking integrations. Proven record of taking products from zero to launch, owning end-to-end architecture across mobile apps, APIs, cloud infrastructure and CI/CD pipelines.

Experience

Expenzez

Aug 2024 – Present

Founder & Full Stack Engineer

- Founded and built a fintech mobile app end-to-end, aggregating bank accounts and tracking real-time spending via Open Banking (GoCardless).
- Architected a scalable serverless backend on AWS (Lambda, API Gateway, DynamoDB) for high-throughput transactions with low-latency responses.
- Delivered core features from design to production: transaction syncing, smart categorisation, budgeting insights and an analytics dashboard.
- Optimised Lambda cold-start behaviour and DynamoDB access patterns, measurably reducing API response times and improving sync reliability.

Rush Laundry

Mar 2023 – Jul 2024

Full Stack Developer

- Built and shipped a production React Native app for end-to-end order booking and real-time delivery tracking, serving live customer traffic.
- Developed RESTful APIs with Node.js and MongoDB for auth, order management and logistics operations.
- Reduced error rates across core journeys by optimising database queries and API request handling; enhanced CI/CD pipelines to improve uptime.

IT-Deutschland Global Business Solutions K.K.

Mar 2022 – Aug 2022

Software Developer Intern

- Built Python backend services processing real-time IoT sensor data from Raspberry Pi environmental monitoring systems.
- Developed a Django web app with secure authentication, data management and analytics dashboards.

Freelance Developer

Jan 2021 – Dec 2021

React / Next.js Developer

- Built a full-stack marketplace using Next.js, Firebase and Node.js — including real-time data sync and secure user authentication.

Technical Skills

Languages: TypeScript, JavaScript, Python

Frontend / Mobile: React, React Native, Next.js, Expo

Backend: Node.js, Express, REST APIs

Cloud & Infrastructure: AWS (Lambda, API Gateway, DynamoDB, S3, CloudWatch), Docker, CI/CD

Databases: MongoDB, PostgreSQL, DynamoDB

Tools & Practices: Git, Linux, Agile, System Design

Education

Birmingham City University

2025

MSc Computer Science (Distinction)

Temple University

2023

BA Computer and Information Science
